Sir.

I am going to day to the country for a hunting trip and are not at home to morrow nor following days. The robbing you accuse me is also unknown to me. and had no interest for me I have not collect a work on the Bombicinæ coins but intend to do it. My collection is ± 1200 pieces large, greater than any museum

collection I know.

The Mallet complete is very rare to find.

I have an exemplar and the work of Captain Brenner (only 100 examples) to guide my collection.

The Mallet is fair here when obtainable 140 frs.

Brenner 100 et 120 frs if obtainable.

Will you give those terms for the work & I will try to procure you them and will send you answers to Philadelphia.

I wish you a good home voyage and if you give catalogues to send me them also offers of obtainables.

Truly Yours.

G. J. B. Renz de Perez
